**Ordinance**

**For More Information** Bart Jennings, 972-0118, Denise Avery, 972-0104

**Boards and Commission Action** To be reviewed by the Water and Wastewater Commission on November 15, 2006

---

North Austin MUD is located along Parmer Lane north of McNeil Road and south of RM 620 North Austin MUD has been a wholesale water and wastewater customer of the City of Austin since 1983 serving approximately 2,600 connections

The City is responsible for providing a minimum of 35 psi at the City's master meters Because of the topographical features within North Austin MUD, some areas with a higher elevation within North Austin MUD experience low water pressure, particularly during peak usage

The Austin Water Utility has long range plans to construct infrastructure improvements that would also provide higher water pressure to serve its existing and future customers in this general area These planned improvements would also allow the North Austin MUD to obtain a higher water pressure to resolve its internal water pressure issues within the MUD's boundaries The North Austin MUD has determined it will construct temporary in-line booster stations which will provide an interim solution until the City's infrastructure improvements are constructed

In assisting the North Austin MUD in resolving their internal water pressure issues, the Utility recommends waiver of \$38,000 estimated for the Engineering Review and Inspection fee for the construction of the temporary in-line booster stations

**ORDINANCE NO.**

**AN ORDINANCE WAIVING THE ENGINEERING REVIEW AND INSPECTION FEE FOR CONSTRUCTION OF THE IN-LINE BOOSTER STATION WATER PROJECT BY NORTH AUSTIN MUNICIPAL UTILITY DISTRICT NO. 1.**

**BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:**
